AdminisTEP Expands Its Relationship with Hawai'i IPA

AdminisTEP will enable providers throughout the islands to directly connect with payors.

PLANO, TX. — November 11, 2008 — AdminisTEP announced today that it has expanded its relationship with Hawai'i IPA, which uses AdminisTEP as the foundation for its Hawai'i Xchange (HIX) electronic medical claims submission portal. Under the expanded relationship, HIX will use AdminisTEP to directly connect providers throughout the islands with all major insurance carriers in the region – virtually eliminating claims transaction fees and the organization's reliance on claims clearinghouses.

“Directly connecting providers to payors eliminates the per-transaction fees that eat into the bottom line of health plans,” said Daren Donnelson, CEO of Legacy. “AdminisTEP can eliminate these fees while offering additional functionality that can be used by both providers and payors. For example, HIX is now looking to further leverage AdminisTEP by using the portal to manage electronic member eligibility and claims status inquiries.”

Currently, more than 1,200 payors participate in HIX, including local and national insurance companies. AdminisTEP is a transaction exchange portal (TEP) that manages claims-related processes and streamlines operations with a robust set of tools that enable organizations to instantly know the status of transactions. AdminisTEP bridges the gap between providers, payors and other organizations by directly connecting them with each other for transaction exchanges.

AdminisTEP is a solution offered by Legacy Consulting Services. For more information, visit www.administep.com or call 1-888-751-3271.
